## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-32 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches a controller which is in communication with the drive device and the coverage measuring device for adjusting the timing of activation for the drive device in response to the receiving signals from the toner area coverage measuring device which measures if the time of activation resulted in engagement of the transfer assist blade is outside of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ahl et al and Obrien et al disclose other example of controllers for controlling contact timing of the transfer-assisting blade.
